

KEMICERA

BUFFABLE CARNAUBA WAX EMULSION FOR MARBLE AND TERRAZZO FLOORS

GENERAL DESCRIPTION

KEMICERA is a buffable wax particularly formulated for hard floors (marble, granite, terrazzo). It can be used also for resilient floors. It can also be used for the maintenance of wood floors treated with varnishes or terracotta floors treated with PRIMER K or BASE OLIO DI LINO. The self brightness of the film can be enhanced with a floor buffing machine.

DIRECTION FOR USE

After cleaning and rinsing the floors, evenly apply the product with a clean cloth. Let dry and then buff with a polishing machine to enhance gloss.

For maintenance, **KEMICERA** can be used diluted in water at 10-20%.

TECHNICAL DATA

Appearance	ivory liquid
pH	8.2 ± 0.3
Density	1.000 g/ml
Active contents	9%
Coefficient of Friction (ASTM Method 2047/75)	0.55

WARNINGS

Keep from freezing.

Labelling

Warning

May cause an allergic skin reaction.

Read carefully the safety data sheet before use.
