

SANOKEM SUPER C

SUPERCONCENTRATED DEODORIZING DETERGENT

GENERAL DESCRIPTION

SANOKEM SUPER C is a low foam superconcentrated detergent to be used with dosage systems combined with a concentrated deodorizing agent formulated for cleaning and deodorizing purposes.

It is particularly formulated for washrooms, restrooms, stairs.

It is normally used in sporting centres, hospitals, nursing homes and other institutional sites.

SANOKEM SUPER C is available in six perfumes: Apple, Lavender (Fantasy), Fresh, Citron, Orange flowers, Jasmin.

DIRECTION FOR USE

Dosing bottles: Unscrew the cap and squeeze the bottle to fill the dosing chamber. Use one-three 30 ml doses for 10 litres of water to make the ready solution for the point of use.

Hand dilution: Dilute 1 part of product and 3 parts of water, to make the standard SANOKEM. Pour in a bottle with dosing marks.

Dosakem system: use the yellow unit without tip or the grey unit with grey tip to prepare the standard SANOKEM.

Use SANOKEM at standard concentration diluting at 3-5% (300-500 grams in 10 liters of water).

Apply the solution of **SANOKEM SUPER C** to the floor or surfaces to be treated, then remove the residues with a squeezed mop or cloth and let dry. Rinsing is not required.

SANOKEM SUPER C can be poured (a few drops) on toilet, bowls and lavatories to leave a fresh smell in the washrooms.

TECHNICAL DATA

Appearance	transparent liquid (different colours depending on perfume)
pH	10.3 ± 0.2
Density	1.021 g/ml
Active contents	40%

Chemical composition – Reg. (EC) 648/2004

- Non-ionic surfactants	conc. 5-15%
- Anionic surfactants	conc. 5-15 %
- Amphoteric surfactants	conc. < 5 %
- Soaps	conc. < 5 %
- EDTA and salts thereof	conc. < 5 %
perfumes	

The product contains surfactants with primary biodegradability at least 90% and ultimate aerobic biodegradation complying with Reg. (EC) No. 648/2004.

WARNINGS

Labelling

Warning

Causes serious eye irritation.

Read carefully the safety data sheet before use.
